From narrative and law to psalms and wisdom literature, the graded approach starts with simpler texts and progresses to higher complexity. - from author preface and back cover

What's the best way to learn a new language? By approaching it not as a series of facts to memorize but as something alive, with a personality you can get to know and tendencies you can sometimes predict. Designed for long-term retention, Learning Biblical Hebrew focuses on helping students understand how the Hebrew language works and providing a solid grounding in Hebrew through extensive reading in the biblical text. Introduces advanced concepts in a form accessible to beginning students. Focuses on historic patterns and changes that minimize memorization. Focuses on how the language works for long-term retention. Encourages mastery of paradigms from a handful of representative forms. Includes extensive translation from the third week of class. Prepares students for translation of unedited biblical texts by the end of first semester. Emphasizes reading comprehension rather than decoding. Promotes a strong oral component to enhance language competence. Written for first-year and second-year Hebrew students, grammar is laid out to present comprehensive concepts to first-year students and then to aid in review and deeper understanding for second-year students. Though written for Hebrew competency, Learning Biblical Hebrew is also well-suited for students with different learning styles and objectives.

After completing basic biblical Greek, students are often eager to continue to learn and strengthen their skills of translation and interpretation. This intermediate graded reader is designed to meet those needs. The reader is "intermediate" in the sense that it presumes the user will have already learned the basics of Greek grammar and syntax and has memorized Greek vocabulary words that appear frequently in the New Testament. The reader is "graded" in the sense that it moves from simpler translation work (Galatians) towards more advanced readings from the book of James, the Septuagint, and from one of the Church Fathers. In each reading lesson, the Greek text is given, followed by supplemental notes that offer help with vocabulary, challenging word forms, and syntax. Discussion questions are also included to foster group conversation and engagement.

This intermediate / advanced text and workbook teaches syntax as well as exegesis by means of a modified inductive approach.

The Learning Biblical Hebrew Workbook is an essential companion for students using Learning Biblical Hebrew: Reading for Comprehension. The workbook includes guided readings tailored to the growing knowledge of the student using the introductory grammar. After the opening chapters containing grammar exercises to reinforce basic concepts, students begin reading actual Hebrew text based on the Joseph story from Genesis 37:50. The text has been abridged and modified to present students with a text that they can read with minimal help. The readings are accompanied with three types of annotations: the Hebrew root or lexical form, an English gloss, or grammatical and textual explanations. The notes are provided to facilitate reading comprehension by identifying unfamiliar words and concepts. As familiarity with vocabulary and grammar increases, the readings are modified less and less until students are essentially reading the standard Hebrew text used in most Hebrew Bibles today. After completing the beginning Biblical Hebrew reader based on the Joseph story, students move on to the intermediate Biblical Hebrew reader that includes the books of Ruth, Jonah, and Esther. The continuous practice of reading Biblical Hebrew text is an essential part of truly understanding and experiencing what you read. The Learning Biblical Hebrew Workbook provides that essential reading practice that will make your study of Biblical Hebrew come alive.
