The most common adjunct used was pelvic binder (50%) followed by no adjunct (30.5%); least common was resuscitative balloon occlusion of the aorta (REBOA) (2.5%). Preperitoneal packing alone and REBOA alone/with other adjunct(s) resulted in the fastest times to operating room/interventional radiology but also had the highest blood utilization and mortality rates.

Why Should I Care about Adjuncts? Here are three good reasons to care about adjuncts. (Reason 1) Put your adjunct in the right place. Place your adjunct next to whatever it is modifying to avoid ambiguity. Look at this example: Cycling uphill quickly strengthens your calf muscles. (This is not wrong, but it's

## Adjuncts For Care Of The Surgical Patient An Issue Of ...

Adjuncts are integrated into the sentence but their removal leaves a well-formed and understandable sentence although we lose some information. The definition of what qualifies as an adjunct is a fraught area, much discussed. Technically, some analysts see an adjunct as anything in a clause which can be removed to leave a well-formed sentence. ...
