Comprehensive instruction on developing real-world financial models This book, designed for self-study, classroom use, and reference, presents a comprehensive approach to developing simple to sophisticated financial models in all major areas of finance. The approach is based on the author's 20 years of experience of developing such models in the business world and teaching a popular MBA class in financial modeling. The book assumes only basic knowledge of Excel and teaches all advanced features of Excel and VBA from scratch using a unique simple method. A companion CD includes all working versions of all the models presented in the book and additional useful reference material. Chandan Sengupta (White Plains, NY) teaches finance in the MBA program at Fordham University's Graduate School of Business. Formerly, he was vice president of the Chase Manhattan Bank for eight years and senior financial advisor for Mobil Corporation for 10 years. He is also the author of The Only Proven Road to Investment Success (0-471-44307-7).
