These Standard Prequalification Documents serve as a guide for those wanting to prequalify to bid on large contracts for projects financed by the World Bank. Qualifying as a bidder is separate from the bid evaluation process. Before invitations to bid on large or especially complex works projects are issued, a process of prequalification is required to select competent bidders. This document helps bidders through the prequalification process. To simplify presentation by applicants for prequalification, standard forms have been prepared for the submission of relevant information. Guidance notes and examples are provided for the implementing agency making the evaluation. Annexes give information about prequalification that are likely to be of interest to potential bidders on World Bank projects. NOTE: This replaces Standard Prequalification Document: Procurement of Works (September 1999), Stock no. 14601 (ISBN 0-8213-4601-6).

The OECD Principles for Integrity in Public Procurement are a ground-breaking instrument that promotes good governance in the entire procurement cycle, from needs assessment to contract management.

The World Health Report 1995 is the first in a planned annual series whose purpose is to provide a diagnosis of the state of human health worldwide. Subtitled bridging the gap, the 1995 issue highlights the inequities in health and health care and the need for a more even and just distribution of the existing knowledge and technology to prevent and control disease. The Organization's contributions to world health are explained and future priorities identified. Ensuring value for money and reducing poverty are regarded as imperative. A comprehensive annex of statistical data is provided.
