"Fiduciaries appear in many laws, such as contract, tort, corporate law, agency, partnership, criminal law, employment law, property law. But rarely are the policies of the fiduciary law examined as such, and rarely are fiduciaries examined together in a systematic manner. This book offers a study of the fiduciary family members and the different rules that govern them. Even though fiduciary relationships are embedded in many legal categories, somehow they do not find a comfortable home in any category. Further, as

## Bookmark File PDF Legal Duties Of Fiduciaries

diverse as fiduciary law is in terms of the contexts in which it arises, it is quite cohesive in terms of the problems it addresses, the principles it presents, and the solutions it mandates. The seemingly disparate rules, applicable to different types of fiduciaries, are in fact consistent with one another, reflecting the costs of verifying the fiduciaries statements and monitoring the fiduciaries actions. In a changing environment, a view of the foundations of fiduciary law helps shape fiduciary rules to new situations or relieve existing situations from legal restrictions.

A study of fiduciary law assists students in predicting who the new members in the fiduciary family are likely to be, and which of the existing ones will die out."--Publisher

In *Fiduciary Law*, Tamar Frankel examines the structure, principles, themes, and objectives of fiduciary law. Fiduciaries, which include corporate managers, money managers, lawyers, and physicians among others, are entrusted with money or power. Frankel explains how fiduciary law is designed to offer protection from abuse of this method of safekeeping. She

deals with fiduciaries in general, and identifies situations in which fiduciary law falls short of offering protection. Frankel analyzes fiduciary debates, and argues that greater preventive measures are required. She offers guidelines for determining the boundaries and substance of fiduciary law, and discusses how failure to enforce fiduciary law can contribute to failing financial and economic systems. Frankel offers ideas and explanations for the courts, regulators, and legislatures, as well as the fiduciaries and entrustors. She argues for strong legal protection against abuse of

entrustment as a means of encouraging fiduciary services in society. Fiduciary Law can help lawyers and policy makers designing the future law and the systems that it protects.

Fiduciary law is one of the most important areas of private law, governing a wide range of relationships that affect people in their daily lives. These new and innovative essays explore the foundations of fiduciary relationships and the duties fiduciaries owe to their beneficiaries.

## Bookmark File PDF Legal Duties Of Fiduciaries

Contractual and fiduciary relationships are the two primary mechanisms through which the law facilitates coordinated pursuit of our personal interests. These fields are often represented in oppositional terms, and many accept the distinction that contract law allows an individual to pursue their interests independently, while fiduciary law allows an individual to pursue their interests in a dependent or interdependent way. Relying on this distinction, however, seems to suggest that the boundaries between the fields of contract and fiduciary law are fixed rather than fluid. Bringing together

theory, and the theory of the firm.

The scholarship on fiduciary duties in business organizations is often pulled in two directions. While most observers would agree that business organizations are one of the key contexts for the application of the fiduciary obligation, corporate law theorists have often expressed disdain for the role of fiduciary duties, with the result that fiduciary law and theory have been out of step with the business world. This volume aims to rectify this situation by bringing together a range of scholars to analyze

fiduciary relationships and the fiduciary obligation in the business context. Contributing authors examine fiduciary obligations in fields ranging from entity structure to bankruptcy to investment regulation. The volume demonstrates that fiduciary law can inform pressing corporate governance debates, including discussions over stakeholder models of the corporation that move beyond shareholder interests.

opens with surveys of the many fields of law in which fiduciary duties arise, including agency law, trust law, corporate law, pension law, bankruptcy law, family law, employment law, legal representation, health care, and international law. Drawing on these surveys, the Handbook offers a synthetic analysis of fiduciary law's key concepts and principles. Chapters in the Handbook explore the defining features of fiduciary relationships, clarify the distinctive fiduciary duties that arise in these relationships, and identify the remedies available for breach of fiduciary duties. The volume also provides numerous
