~~Amazon.com: Customer reviews: Multimedia for Learning ...~~

On Overview of the Cognitive Theory of Multimedia Learning. Multimedia learning is a form of computer-aided instruction that uses two modalities concurrently (Mayer, 2002). The use of visual learning (pictures, written text, animations, and videos) and verbal learning (spoken narration) as discrete channels for delivering content is different from the traditional classroom practice of lecturing to students or having students read silently.

~~Multimedia Learning -- an overview | ScienceDirect Topics~~

Multimedia training can reduce the costs of your training department in numerous ways. It reduces the time it takes to learn, thereby reducing costs. The Hudson Institute of Indianapolis has conducted research that concluded an average of 40% time reduction when using online learning and multimedia as opposed to more traditional methods.
